MAD-CHICK ROCKER BronweN TAKES ON THE BULLIES OF THE WORLD

Silent Victim, the debut album for the newest Canadian rock phenomenon, is set for release on September 5, 2006. It will be available online at CDBaby.com and IndiePool.com.

Silent Victim is BronweN's response to years of bullying, and the public's reaction to our 4 test songs has been overwhelming. People are connecting with her message across the globe through the Myspace community. BronweN is getting

- An average of 6.5 plays per friend with only 4 songs posted.

With an impressive 3-octave range, BronweN has the ability to belt out her frustrations or whisper love in your ear, all with a convincing intensity reminiscent of PJ Harvey and Alanis Morissette. BronweN shows her multi-instrumental prowess by layering rhythm guitar with melancholic piano riffs and edgy violin lines that are haunting and sexy. Added to this are performances from some major talent, including Grammy award-winning drummer Randall Stoll (kd Lang, Tom Cochrane).

BronweN covers the entire emotional spectrum on Silent Victim, daring to move from enraged to hopeful in the blink of an eye. Her lyrics are brutally honest, digging heavily into various kinds of victimization and self esteem as well as love. "I am human and my mood can change very quickly. I just want to be as real as I possibly can be. If people connect with my songs, that would really be cool, more than I could hope for."

At Fat Chance Records, we feel that BronweN has much more than a fat chance. This album is an emotional roller coaster. Are you ready for the ride?

Silent Victim will be available online, September 5, 2006.
